

CONSERVATIVE VICTORY PLEASES

One Communist And Prohibitionist Win In Parliament Seat

Labor Exults in Gains Made in Election--Party Looks for Labor Government in 18 Months.

(Associated Press Leased Wire.) LONDON, Nov. 17.—Gratification is expressed by most of the morning papers at the result of the Parliamentary elections. This was of course to be expected, the conservative majority being the result of the retention of the conservative majority but some of the Liberal papers also find certain ground for satisfaction or compensation. They recognize that the outcome means the return of a party government and the disappearance of all the most disliked in the survival of the coalition long after they regarded its dissolution as due.

The Daily Herald exulting over Labor's success anticipates another election within 18 months and says: "If in the meantime we play our cards boldly and skillfully, we ought to have a labor government without doubt."

The conservative majority is seriously disputed by the papers, their figures ranging from 80 to 87 and until all returns come in this discrepancy will continue. For the first time in history a candidate standing as an avowed communist was elected when J. W. Newbold was returned from North-west division of Lancashire. Another isolated member is E. S. Mestegash, a prohibitionist, who with the laborite, E. D. Morris, defeated Winston Churchill in Dundee, a two seat constituency. Those who expected Mr. Churchill's defeat little expected the prohibitionist's victory.

Moonshine Bomb Kills Three People

(Associated Press Leased Wire.) CHICAGO, Nov. 17.—Police today worked on the theory that a bomb caused last night's explosion and fire in a moonshine distillery, resulting in the death of three persons and the injury of at least nine others.

The explosion occurred in a mixed foreign quarter of the city. Two buildings were wrecked. In the ruins of one police and firemen found the debris of two stills. The original report of the firemen was that one of the stills had exploded. Later investigation developed bomb throwing.

Dr. Hall Back From Odd Fellows' Meeting

Rev. J. Cleveland Hall, D. D., has returned from a pleasant visit to Alexandria and Washington, the guest of the Northern Virginia Association of Odd Fellows. The sessions of the association were held on Tuesday. In the afternoon a parade with five or six bands, was held in the streets of Alexandria, the governor of Virginia being the guest of honor with the Grand Lodge officers of whom Dr. Hall was one, being the grand chaplain of the order in Virginia.

In the afternoon the governor addressed the Odd Fellows in the Hugomir Theatre, which was crowded. The governor made an earnest appeal for the members of the order to stand by the officers of the law in Virginia, of whom he was the head. He emphasized the necessity that the state stand by the laws as now upon the statute books.

At night in the theatre, a meeting restricted to Odd Fellows was held at which the three beautiful degrees of Odd Fellowship were exemplified with over three hundred candidates.

Funeral of Infant Held on Yesterday

The funeral of Roy J. Davis, Jr., month-old son of Mr. and Mrs. Roy J. Davis, who died Wednesday afternoon at 6:20 o'clock, was held yesterday from the parental home on Madison avenue at 3 o'clock. The services were conducted by Rev. J. J. Holland. A number of neighborhood friends of the family and relatives. Interment was made in Mountain View cemetery.

FIRE IN HOTEL ROOF

(Associated Press Leased Wire.) GREENSBORO, N. C., Nov. 17.—Fire shortly before noon today did slight damage to the roof of the old Benbow hotel on South Elm street.

Urge Completion Of Davis Obelisk

Daughters of Confederacy Need \$20,000 to Complete Monument in Kentucky.

(Associated Press Leased Wire.) BIRMINGHAM, Nov. 17.—The United Daughters of the Confederacy will complete the Jefferson Davis monument at Fairview, Ky., within the next year if a report and recommendation that places be taken from the floor to raise \$20,000, the remainder of the sum necessary to complete the shaft. The obelisk is now 216 feet high and work has been stopped for lack of funds.

When completed the memorial will be 251 feet high. Efforts of the Daughters to raise the cotton tax restitution bill introduced in Congress in 1916 and by the Upshaw bill for pensions for Confederates were blocked in the cotton tax committee report.

"Reports are not very encouraging so far as conditions in Congress are concerned," the report continues. "Our concern is to carry on their work for the good of the grey knights of Lee and Jackson."

Kitchin Is Back In Washington

(Associated Press Leased Wire.) WASHINGTON, Nov. 17.—Representative Kitchin of North Carolina, Democratic leader of the House, returned to Washington today after a long absence due to illness to be present at the opening session Monday. He motored here from his home in North Carolina, where he had been apparently ill.

Men who saw Mr. Kitchin said he would take things easily and not attempt to overtax his strength.

Grain Futures Law To Await Court

(Associated Press Leased Wire.) CHICAGO, Nov. 17.—Federal Judge Carpenter today dismissed the Chicago Board of Trade bill for an injunction, restraining enforcement of the grain futures trading regulatory act but continued the stay order, preventing enforcement of the law until its constitutionality has been passed upon by the United States Supreme Court.

Life Insurance—"Buy from Bass"

(Associated Press Leased Wire.) CHICAGO, Nov. 17.—Federal Judge Carpenter today dismissed the Chicago Board of Trade bill for an injunction, restraining enforcement of the grain futures trading regulatory act but continued the stay order, preventing enforcement of the law until its constitutionality has been passed upon by the United States Supreme Court.

CONSERVATIVE VICTORY PLEASES

One Communist And Prohibitionist Win In Parliament Seat

City Pill-Rollers Roll the Kiwanis

The Kiwanis club met last night under the beneficent care of the doctors and druggists, Jim Ley, of Schoolfield fame, having charge of the meeting, which lasted about an hour and fifteen minutes. After an excellent supper served in the usual Country club style, and the singing of several songs under Bryant Heard's peppery leadership, a program was presented by the druggist members of the club, featuring an essay by Glen Uppdike on pill-rolling, a further novelty was introduced last night when Jim Ley handed each speaker as he arose, a very short length of lighted candle, with instructions to speak only so long as the candle burned. Louis Kaufman drew the attending prize which was donated by Howe Miller. Each member present received a handsome leather key case, with the compliments of John B. Harvie.

The secretary was directed to express to the various individuals and organizations contributing to the success of last Saturday's tree planting, and upon motion a committee of ladies was elected who are charged with the permanent care of the trees. The ladies are members of Kiwanis families residing in the community. It was reported last night that sale of tickets, which has been conducted by the members of the club and ladies of the Music Study club for the Sue Harvard concert, has met with good success and that a large audience is assured. Purchasers of tickets are reminded that these should be exchanged at the box office of the Majestic theater for reserved seats, which are placed on sale today.

Five minute talkers last night were Chas. G. Evans and Claude E. Talley. Mr. Talley spoke on the vicissitudes of street railroading, and gave some interesting facts and figures relating to the conduct of public carriers. His remarks emphasized the folly of municipal ownership, citing examples in various sections of the country, and stressed the importance of a community lending its support to its street railway system, for the good of the city itself.

Mr. Evans spoke interestingly on the subject "What Is Kiwanis?" part of his remarks being quoted, and which are as follows:

"It is not a religious organization, but it believes in God. It is not sectarian, but it believes in the church. It is not educational, but it believes in the school. It is not benevolent, but it believes in charity. It is not fraternal, but it believes in brotherhood. It is not political but it believes in good government. Kiwanis cares nothing for tradition, but for truth. It is not a break period, but it preserves principle. It hates formality, but fosters familiarity; not the familiarity that breeds contempt, but companionship. What it may lack in dignity it makes up in devotion. It is not a personality. It counts itself with a member's character, not his cash."

The committee of ladies who will have in charge the preservation of the trees planted last Saturday is composed of Mrs. Herbert M. Martin, Mrs. C. W. Wooding, Mrs. Frank Schomer, Mrs. Henry Rodiger, Mrs. D. P. Garvin and Mrs. J. L. Browder, Jr.

Infatuated Man Shoots Himself

(Associated Press Leased Wire.) NEW YORK, Nov. 17.—William Logan, theatrical agency man yesterday sent word to the Spanish dancer at the Hippodrome that since she had infatuated him he intended to sit in a theatre box in the afternoon and shoot himself as she came on the stage. The dancer cancelled the show. Then after the performance the dancer and a detective went to Logan's office and told him he would have to stop annoying the dancer. "I'll never bother you again," he said. As he departed, a pistol followed and hurrying back he found Logan with a wound above the heart. A guard was placed over him at the hospital and if he recovers he will be charged with violating the Sullivan pistol act.

Extreme Penalty For Four Irishmen

(Associated Press Leased Wire.) DUBLIN, Nov. 17.—Four civilians, all residents of the Free state following a trial by military court, were charged with unlawful possession of revolvers were executed today.

Ex-Ambassador Dies In Ohio

(Associated Press Leased Wire.) ELYRIA, Ohio, Nov. 17.—William Elyria, former ambassador to France died at his home here today. Mr. Sharp had been ill for several days. He was American ambassador to France five years, serving in Paris during the world war. He resided his post a year after the armistice was signed.

VIENNA SEEKS RETURN OF NAPOLEONIC MEMENTOS

(By The Associated Press.) VIENNA, Nov. 17.—In 1914 the municipality of Vienna sent to the municipality of France a priceless exhibit of relics of the Franco-Austrian period of Napoleon's time. They included many mementoes of the French Emperor and of Mary Louise, and other articles of great historic interest.

The war came, and the collection is still in France. This week the Mayor of Vienna petitioned the French Minister to restore it to the city. It is understood these articles are now in the hands of the French liquidator of alien enemy properties.

—Mrs. Richard P. Moss, Misses Madelyn Moore, Anne Carrington and Margaret Maxon spent Friday in Lynchburg, attending the Rosa Ponselle concert in the evening.

Shooting Proves To Be Accident

No blame was attached to Ben Elliot who, on Wednesday afternoon, shot and killed Edward Pruitt while hunting snipe in a boat on Dan river some distance above the city. Pruitt, a schoolmaster, was shot by R. S. Fitts of Schoolfield yesterday conducted an investigation of the shooting, questioning Elliot, Booker Chapman, who was also present at the fatality and several other people. The county officer found that the shooting was purely accidental and he ordered Elliot released. No inquest was held, the coroner after learning the facts finding that this was not necessary.

Elliot spent Wednesday night in jail pending the enquiry. He had previously surrendered to the officer, finding that Pruitt, who received the full charge of shot in his side, was dead.

Mexico Protests Texas Mob Threat

Mexicans had been murdered in recent months in small Texas towns, where labor conditions arouse antagonism between American and Mexican laborers. The feeling between his countrymen and American citizens of the more peaceful sections of Texas, however, was excellent. In cities such as Laredo and San Antonio, where the Mexican population predominates, Senator Teller asserted friction was very rare.

Motorist Must Stay in Jail Or Pay \$28,651 for Killing 3

NEW YORK, Nov. 16.—Joseph P. Moran, 37, of 70 Madison street, Holbrook, was held to remain in jail until he pays \$28,651 in judgments, found against him after his auto had run over a parade in Queens on Sept. 20, 1921, and killed three persons and injured several others.

Judge David C. Clark of the Third District Court in New York today gave this decision when Joseph Moran applied for a writ of habeas corpus for release from jail on the contention that the judgments were debts due to him by the deceased. Judge Clark ruled that because the judgments were obtained for "unlawful and malicious acts" they are not dischargeable and, therefore, Oster must remain confined until they are paid.

Armed Men Order Her Nationals to Quit Town of Breckenridge or Be Ejected

WASHINGTON, Nov. 15.—Representations of urgent character were made in a note delivered to the State Department late tonight by the Mexican Embassy requesting immediate protection for Mexicans living in Breckenridge, Texas.

These representations were made by Senator Manuel O. Tejeda, Mexican chargé upon receipt of information that the streets of Breckenridge had been ordered by armed men to quit the city before midnight tonight.

Consul General Ruiz of San Antonio has communicated with Governor Neff, informing him that last night 200 men paraded the streets of Breckenridge, a town in the oil belt, and insisted that all Mexicans they saw, insisting that every one must be out of Breckenridge today, failing which they would be ejected. The Mexicans appealed to the Mayor, but were informed by him, it is said, that he could not guarantee their protection.

Senator Tejeda declared that many

Toll From Cancer In Virginia Grows

Statistics Show 1,300 People of This State Died Last Year But Average Is Not as High as in Many Other States.

By GEORGE MANNING
(Washington Correspondent of The Danville Bee.)

WASHINGTON, D. C., Nov. 17.—The death rate from cancer in Virginia, while it has increased steadily since 1917, in keeping with the general increase in the other states, comparatively low and not much more than half the general average for the whole United States.

About 1,300 persons died from cancer in Virginia last year, or 56.5 for every 100,000 of population, the U. S. Census Bureau finds.

The rate of deaths from cancer in Virginia in 1917 was 52.5. In 1918 it increased to 53.9 for every 100,000 population; dropped back to 52.3 in 1919; advanced to 55.9 in 1920 and increased to 56.5 in 1921.

In each of these years it was much below the general average for the United States which was 82.0 in 1917; 80.3 in 1918; 80.5 in 1919; 83.4 in 1920 and 86.9 in 1921.

The Census Bureau states that the total number of deaths in the registration area of the United States last year was 76,274, and estimates from this that the cancer deaths in the entire country last year were over 92,000, an increase over 1920 when it was 89,000.

The rate of deaths from cancer is considerably higher in the Northern States than in the Southern States. The study made by the Census Bureau shows that the death rate from cancer per 100,000 of population in 1921 in New Hampshire was 119.8; in Maine, 116.5; in Massachusetts, 118; in New York, 105.7; in Rhode Island, 110.4, and in Vermont, 113.5; compared with South Carolina, 34.4; North Carolina, 42.9; Florida, 51.3; Louisiana, 53.6; Mississippi, 41.8, and Tennessee, 47.1.

There seems to be practically no difference in the susceptibility of the white and colored population in the same states, the death rate from cancer among the colored being about as low as among the whites in the South and as high as among the whites in the North.

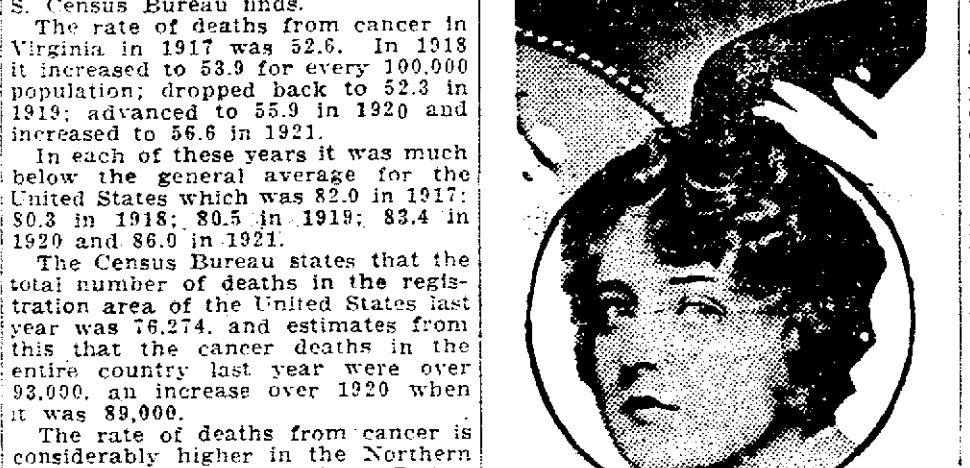

New Hampshire has the highest death rate from cancer in 1921, with 119.5 to every 100,000 of population; Massachusetts is next with 118.0; Maine follows with 116.5; and Vermont is close up with 113.5.

South Carolina has the lowest rates in 1921 and for the past four or five years, the death rate from cancer having actually decreased in those states each year since 1917, while it has gone steadily upward in the other states.

Stars Scrap for Manager

MME. LUELLA MELIUS, ABOVE, AND GANNA WALSKA.

The operative word is "up in the air" over the controversy which has come to light between Mme. Luella Melius, soprano of the Chicago opera, and Ganna Walska, prima donna wife of Harold McCormick. Mme. Melius charges that Ganna stole her manager, G. Jules Daiber, and has had an injunction issued against Daiber, Walska and McCormick which would halt their concert tour. "Pooh-pooh," was all Daiber would say about it.

Americans Safe in China

Americans in China are protected against outrages along the Yangtze River in China by a squadron of U. S. naval vessels under the command of Rear Admiral W. W. B. Phelps, who has been sent to cooperate with commanders of other squadrons toward making the country safe for foreigners.

Mobilize Forces in Washington to Oppose Amendment to Transportation Act.

(Associated Press Leased Wire.) WASHINGTON, Nov. 17.—Plans for a series of conferences in Washington of railway labor leaders the first to be held tomorrow to discuss the attitude to be taken by railway labor unions towards proposed amendments to the transportation act, were announced today by H. E. Wills, legislative representative for the Brotherhood Locomotive Engineers. The conferences will be attended by Warren S. Stone, chief of the engineers; D. P. Robinson, head of the Brotherhood of Firemen and Engineers, and the Washington representative of the other labor unions.

Leaders said it was certain that railway labor would oppose any amendment to the transportation act, restricting the right of workers to strike and would favor any proposal for the abolition of the board.

Moscow Soviets Win An Ally

(Associated Press Leased Wire.) CHINA, Far Eastern Republic, Nov. 17.—The government of the Far East Republic of Ussuriya was abolished today. The assembly voted to unite with the Soviet Government of Moscow.

General Nichols Attends Reserve Officers Meeting

WASHINGTON, Nov. 17.—General E. W. Nichols, Virginia Military Institute, Lexington, a member of the committee on reserve officers trained today at the War Department. The committee is holding a bi-weekly conference today relative to the training of the youth of the country being held under the auspices of the War Department. The conference met today at Continental Memorial Hall with Brigadier General Wm. Lister presiding.

Abdication Denied By Mohammed As He Boards Warship

(Associated Press Leased Wire.) CONSTANTINOPLE, Nov. 17.—Mohammed VI, the Turkish Sultan has fled on a British warship bound for Malta. Upon embarking the sultan emphasized he was not abdicating but removing himself from immediate danger. The sultan wrote to Lieut. Gen. Harrington, British commander-in-chief on Wednesday, saying he considered his life in danger and would like British protection.

Young Widow Has Disappeared

(Associated Press Leased Wire.) ANDERSON, S. C., Nov. 17.—Relatives of Mrs. Gertrude Rhodes, young widow, today asked officials in a number of cities to make a search for her. She has been missing since November 8th, when she went to visit in Bassie, Va.

Kemalists Try To Run Blockade

(Associated Press Leased Wire.) CONSTANTINOPLE, Nov. 17.—An attempt by the Kemalists to run the interned Turk destroyer Akhissar disguised as a merchantman out of the Golden Horn past Allied control was frustrated last night.

Abdication Denied By Mohammed As He Boards Warship

W. B. Hill Resigns Dan Valley Mills

A report which has been current for the past few days that W. B. Hill for many years associated with the active operation of the Dan Valley Mills had tendered his resignation as vice president and treasurer of the organization, was confirmed this morning. Mr. Hill, when questioned today admitted that he had presented his resignation and that it would become effective on January 1st. Mr. Hill is withdrawing in order to take a rest and to enjoy some relaxation after a long period of devoted and successful service to the mill organization. He and his family propose to remain in Danville where they have long made their home and where he and Mrs. Hill are highly esteemed. He has been associated with the Dan Valley Mills since 1895. For several years he was secretary and treasurer then being elected vice president and treasurer of the corporation and thus actively in charge of its work. This concern largely under his leadership has developed into one of Danville's most prosperous industrial concerns.

The board of directors, it is understood, will take no steps to fill Mr. Hill's place until after the new year.

Dr. DuBose Still Considering Call

Reports current today that Rev. Henry Wade DuBose, D. D., pastor of the First Presbyterian church had decided to accept the call tendered him by the First Presbyterian church of Spartanburg, were not authenticated when enquiry was made of the minister this morning. Dr. DuBose has reached no definite decision. In the matter yet, although he is known to be giving the call serious consideration. He said that he has made no reply to the call as yet.

INN FREQUENTED BY NAPOLEON STILL DOING BIG BUSINESS

(By The Associated Press.) AUGSBURG, Bavaria, Nov. 17.—The most famous inn in Germany, "The Three Moors" at Augsburg, has been celebrating an anniversary of its founding 400 years ago.

Napoleon I spent some time in Augsburg with his staff, and the old guest-book of the inn held the signatures of Josephine Beauharnais and Marie Louise. Next to them were inscribed the names of Metternich and Talleyrand, and of various princes and ambassadors en route to the Congress of Vienna. Other noted guests included Wellington and Sir Walter Scott.

Railway Labor To Fight Change

(Associated Press Leased Wire.) WASHINGTON, Nov. 17.—Plans for a series of conferences in Washington of railway labor leaders the first to be held tomorrow to discuss the attitude to be taken by railway labor unions towards proposed amendments to the transportation act, were announced today by H. E. Wills, legislative representative for the Brotherhood Locomotive Engineers. The conferences will be attended by Warren S. Stone, chief of the engineers; D. P. Robinson, head of the Brotherhood of Firemen and Engineers, and the Washington representative of the other labor unions.

Leaders said it was certain that railway labor would oppose any amendment to the transportation act, restricting the right of workers to strike and would favor any proposal for the abolition of the board.

Dr. Smoot Before North Carolina Conference Today

(Associated Press Leased Wire.) RALEIGH, N. C., Nov. 17.—The next session of the North Carolina Conference, Methodist Church, South will be held in Elizabeth City, this invitation being accepted by the conference this morning after a contest, Wilmington and Kingston. Reception of the other towns interested today by a class of five young men into full connection after two years on trial was the solemn feature of the morning session. Bishop Denny charging them and impressing them with the fundamentals of discipline as written by John Wesley.

Dr. T. J. Smoot, of Danville, presented the work of the hospital board of the South Methodist church and Dr. T. N. Ivey, of the superannuates. A committee of five was appointed to cooperate with the West. The Methodist Protestant church for closer cooperation.

The morning session was busy clearing the way for the report and resolutions of the board and resolutions of the board and committees on Saturday.

(Associated Press Leased Wire.) LONDON, Nov. 17.—Hussein Bey, son of the late King of the Hejaz, was assassinated today in the streets of Damascus. The assassin, a young man named Ali, was killed on the spot. The king is believed to be in political exile.

MISS DAISY GOSNEY ENTERTAINS AT PARTY

The home of Miss Daisy Gosney on Paxton street on Wednesday night was the scene of an enjoyable party, the occasion being in honor of her birthday. By 8 o'clock the guests had arrived and a program of various kinds of games began, after which dancing was indulged in for about an hour. Following the dance, all were ushered into the dining room where refreshments, including cake, cream and a variety of fruits, were served. Miss Gosney was the recipient of a number of attractive presents.

WILL ANSWER ANY WOMAN WHO WRITES

Woman Restored to Health by Lydia E. Pinkham's Vegetable Compound Makes This Offer

Cumberland, Md.—"My mother gave me Lydia E. Pinkham's Vegetable Compound when I was between thirteen and fourteen years old and was going to school, because I suffered with pains and could not rest. I did not have any more trouble after that until I was married, then I was troubled in my back while carrying a child and could not do my work until I took the Vegetable Compound. I am strong, do all my washing and ironing and work for seven children and feel fine. I always have an easy time at childbirth and what it did for me it will do for other women. I am willing to answer any woman if she will write asking what it did for me."

—Mrs. JOHN HEIR, 53 Dilley St., Cumberland, Md.

During childhood and later during motherhood Lydia E. Pinkham's Vegetable Compound brought relief to Mrs. Heir. Her case is but one of many we constantly publish recommending our Vegetable Compound. She is willing to answer your letter. Write to her.

MISS ANGLIN HAS AN APPRECIATIVE AUDIENCE HERE

Miss Margaret Anglin, widely known as the legitimate stage, appeared here last night at the head of a well-balanced company in "The Woman of Bronze," a play by Paul Keister, which recently terminated successful long runs in both New York and Chicago. The drama verging on tragedy and reaching at times unusual heights in emotional expression was exceptionally well presented with Miss Anglin and Fred Eric in the main roles and ably supported by a cast which in the earlier stages of the play contributed to its lighter phases. Miss Anglin was given a warm reception at the close of an exacting play and her interpretation of the role—one would almost call it that of tragedy—was generally commented upon.

She had the quality of imparting to the audience something of the philosophy she was creating and that in those centres where one may not find one's talent for the evening's entertainment, Margaret Anglin lived the part she played last night and with capable support it is a realistic production. The theme of the play is hackneyed enough. It is a chapter in the life of the artist who takes his wife's love for granted and becomes enamored with a girl he has sheltered. He is engaged in a massive piece of sculpture and his wife is eager for his success, endures her own unhappiness for his sake. She is the woman in bronze who has steeled her heart against surrender, the climatic point in the play coming when her husband prepares to leave with his paramour. Finally there is the reconciliation which affords a further opportunity for powerful acting. The play is a subtle one and while the plot may not find universal favor nobody could gainsay that presented by the cast seen here last night afforded an opportunity to see great acting.

Despite the strength of the cast and the vigor and real worth of the show, probably the smallest crowd of the season attended the Mayenne theatre last night.

Personals

Miss Claudia Patrick and Miss Virginia Clare, of Richmond, Va., and Miss Lucile Karne, of Covington, Va., are in Danville to attend the Davis-Thorne wedding and reception tomorrow night.

Rev. P. C. Clark, D. D., and Miss Mary Clark, of Shawville, Va., are guests of Mr. and Mrs. H. G. Clark, Jefferson avenue.

—F. C. Bowles is improving after a long illness in the General Hospital.

—Mrs. C. E. Hughes is the guest of Mrs. C. F. Conway.

—Mr. Billy Morgan Pace of Richmond, is in the city to attend the Davis-Thorne wedding.

—Mrs. Albert D. Brockett of Washington, D. C., is the guest of Mrs. E. Taylor.

—Mr. D. S. Lashberger a former well known and esteemed resident, now of San Francisco, is in Danville on a visit and is stopping at the Bolivar hotel.

—Mrs. C. H. Brimmer is in Philadelphia attending the world W. C. T. U. convention.

ENGAGEMENT ANNOUNCED

Mr. Benjamin Williams and Miss Grace Williams are engaged and approaching marriage of their daughter, Grace, to Mr. George Anderson Jones, a marriage to take place in December.

DRY WORLD SEEN ON WAY

(Miss Anna Adams Gordon of Evanston, Ill., has just been elected president of the international body of the W. C. T. U. at Philadelphia. Immediately upon her exclusive statement to The Bee and New Service outlining the far-reaching projects she will seek to put into effect to make the world dry.)

By ANNA ADAMS GORDON, President, World's Women's Christian Temperance Union.

PHILADELPHIA, Nov. 17.—For 40 years the Women's Christian Temperance Union has been working for prohibition in 40 nations. An international education program has been conducted in practically every civilized part of the globe. Thousands of workers speaking many languages have been carrying forward the work.

All over the world we have been imparting to peoples of all the races the fundamental knowledge of the effect of alcohol on the human system.

Discouraged and Encouraged.

Difficulties and obstacles of course have beset these W. C. T. U. workers but they have been encouraged and cheered on by two facts:

ONE—They always have known they were a part of a great organization that they are all banded together for one purpose, and could count on the support and cooperation of their fellow workers everywhere.

TWO—Almost from the beginning we achieved some results, and with the passing years and the extending of our efforts into newer and larger territories we have seen the work going successfully forward.

In recent years great strides toward world-wide prohibition have been made. With these advancements many reinforcements have joined our ranks. Many rational, thinkers and women the world over who were not originally in sympathy with prohibition have come to see the educational basis of our program and the necessity of our objective and have joined with us and are now joining their best efforts to our work.

To Continue Program.

We shall carry on our program along practically the same lines as have followed for 40 years, and we are confident of a successful termination of our long-sought objective of world-wide prohibition.

The position of the W. C. T. U. in the matter of cigars and tobacco is

ANNA ADAMS GORDON

exactly what it always has been. We do not put tobacco and cigars side by side with alcoholic beverages.

Our national program on the subject of tobacco is an educational one, outlined and carried forward in the interest of the health of boys and girls everywhere.

It is based on established scientific facts that prove beyond question the injurious effects of narcotics on the physical and nervous system.

We have worked largely with the school and other educational officials and authorities and almost without exception they have shown the keenest interest and readiest disposition to cooperate with us.

CONFERENCE OF OFFICIALS OF WESTERN UNION

A three days' conference of the officials of the Southern Division and fifty of the managers of the Western Union Telegraph Company, of offices in Virginia, North Carolina and South Carolina held at Murphy Hotel, Richmond, Va., was concluded Wednesday.

J. A. Scruggs, the company's office in this city attended the conference and addressed the meeting regarding the telegraph needs of Danville.

Among the matters taken up at the conference were the betterment of the telegraph service in Virginia, North and South Carolina and the Southern territory and the improved cable service to Europe and South America.

Under the new plans of the company, telegrams are now transmitted in fifteen minutes between the principal points throughout the United States, in fifteen minutes to London and Liverpool, and in twenty minutes to Rio de Janeiro, Santos, and Buenos Aires, South America.

Cable letter and week-end letter service have now been resumed to Great Britain and Ireland. Both forms of service are designed for plain language and social communications which do not require instantaneous transmission, but still are of sufficient urgency that they should not be subjected to the delay incident to carriage by trans-oceanic mail. Each form of service, in its own way, supplies a distinct convenience.

Among the officials present were: H. C. Worthen, General Manager, Atlanta; A. C. Kaufman, general commercial agent, New York; W. G. Sale, District Commercial Superintendent, Richmond; E. P. Crutchfield, division commercial manager, Atlanta; G. T. Butts, division cable manager, Atlanta; S. G. Quisenberry, division commercial manager, Atlanta; G. O. Summers, city superintendent, Richmond, Va.; E. W. Miner, district commercial agent, Richmond; K. E. Kay, city superintendent, Norfolk, Va.; and J. C. Nelson, commercial agent, Norfolk, Va.

CHATHAM NEWS NOTES

CHATHAM, Nov. 16.—Mrs. Ervin Hall, a bride of less than ten days, died at the home of her husband near here on Sunday and was laid to rest in the family cemetery on Monday afternoon. She was not quite eighteen and had been married less than one week when she was taken ill with throat trouble from which she never rallied. She is survived by her husband and a large family connection in Henry County where she was born, but had made her home in Reidsville, N. C. for several years before coming to this place.

The home of Mrs. John M. Jones in South Chatham on Wednesday afternoon was the scene of a very brilliant gathering, the occasion being a miscellaneous shower given in honor of bride elect, Miss Sara Shepherd. The amusement of the afternoon was a Cupid contest in which each guest was provided with a card with ten questions each of which had to be answered with words beginning with heart. Several were equal in honors and the prize was presented to the bride elect. Following this tea and sandwiches were served and the bridesmaids were a beautiful sight in which was attached a small card directing where to find the hiding place of valuable gifts each telling the hiding place of another and this was followed by the toast of honor, following the rainbow of ribbons to the pot of gold in which was a large number of hand-

some and valuable gifts. The evening of pleasure closed with serving of refreshments.

Members, J. Hunt Hargrave, D. A. Jefferson, Colonel A. H. Camden and Rev. T. Ryland Sanford are attending the Baptist General Association at Newport News.

Mr. and Mrs. W. T. Hughes and Miss Elizabeth Roberts of Danville were Sunday guests of Mrs. J. Hunt Hargrave.

Mrs. T. J. Fitzgerald is visiting friends and relatives in New York state.

A very much enjoyed program was given by the High School League in the auditorium of the school on Monday night which was well attended. The various musical numbers were very much enjoyed. These were followed by short talks along lines beneficial to the school work.

The G. S. Spruce residential property on upper Main street purchased for about two thousand dollars several years ago and was sold at auction Wednesday for twenty three thousand dollars having been subdivided into building lots.

Receipts of tobacco by the Co-ops have been very good this week and the recent rain will very much increase sales the coming week. Prices are holding well and farmers pleased.

J. S. Jones and family of the county near Chestnut Level have moved into their new home on Main street.

SANTIAGO, Chile, Nov. 14.—Strong earth shocks were felt at 12:30 o'clock today in the Copiaco and Lasebene districts where great loss of life was suffered in Saturday's quake, according to advices.

Little Gastonia Woman Gains 25 Pounds

"When I began taking Tanlac," says Mrs. Shirley R. Fronberger, of 115 East Third Street, Gastonia, N. C. "I was almost a nervous wreck. My condition had become such that I was almost desperate. I was troubled with gas on my stomach and had sick to my bed. I was so run down that even the care of my three little children was almost beyond my strength. What six bottles of Tanlac has done for me is too wonderful for words to express. My nerves are as calm now as nerves can be and I am off to sleep nearly as soon as I get in bed at night. I have gained twenty-five pounds and am feeling fine. If it is ever necessary for me to take medicine again I will certainly take more Tanlac."

Tanlac is sold by all good druggists.—adv.

Rosenstocks

Danville Now Promised New Afternoon Paper

A good deal of local interest has been aroused over the hanging of a sign on the building of the Southern Amusement Company on Main Street, directing attention to the headquarters of a new newspaper which it is proposed will be published in this city early in 1923, and which will be published, the banner says, by the citizens of Danville. The sign was put in place during the night and immediately attracted the eye of one who went to work on Wednesday morning. While no information is given as to the identity of the citizens who propose to publish the paper, something of its prospects has been learned from C. T. Eldridge, who is acquainted with some of the details of the undertaking which he is supporting. The newspaper proposed early in the coming year is to be an afternoon publication for the dissemination of the general news and with a leased wire service. Mr. Eldridge indicated that the ground has been gone over in a painstaking and thorough manner, even to the extent of bringing to Danville a newspaper expert, who conferred with the backers of the paper and outlined the necessary preliminary papers which would be involved in launching such a newspaper. The financial plan has been gone over systematically and, according to Mr. Eldridge, with several prominent gentlemen prepared to go already pledged to subscribe stock. Efforts are now being made to increase the potential resources of the organization. A plan for the publication of the paper has not yet been secured, but one is being looked for and steps are being taken to secure the services of a trained journalist to come here and take the helm.

The paper, according to Mr. Eldridge, is not to be sectarian, but will be operated as a business proposition. The identity of those launching the paper has not been revealed although the names of several are mentioned in connection with it in an unofficial sort of way.

Amusements AT MAJESTIC TUESDAY

Miss Sue Harvard in Concerts, Under Auspices of Kiwanis Club

Kiwanians may take a certain pride in the knowledge that one of their number, the only honorary woman member, Sue Harvard, sang for the entertainment of Premier Lloyd George and his guests last summer. Not so many years ago she was an unknown singer in one of Pittsburgh's prominent churches. Today Miss Harvard is an international musical figure, having gained a place in the Metropolitan Opera and put to her everlasting credit a number of concert appearances in England and Wales that have established her as one of the few "foreign" artists who may re-visit Great Britain at any future date and be certain of renewed success. On our own concert platforms she has reached genuine fame during comparatively brief period, barely six years. The news of an appearance by this delightful young soprano is of course always welcome and as already announced by The Danville Kiwanis Club, Miss Harvard has been engaged to sing at the Majestic on Tuesday evening, November 21st.

Miss Harvard would be too modest to repeat what England's Premier said about her voice—and he is an ardent music lover—but one who was present at the reception reports the famous statesman to have exclaimed with moving earnestness: "You are one of the very loveliest voices I have ever heard!" And there are a great many concert-goers in America who feel the same way.

Prices 50 cents to \$2.00. Seat sale opens today at 10 a. m.

MISS BOOTH WRITES SHE'S WILLING TO GO

NEW YORK, Nov. 16.—Miss Evangeline Booth has written in an editorial for the next issue of The War Cry, official Salvation Army weekly, that she is ready to obey the order of General Bramwell Booth, which will remove her as the head of the Salvation Army in America.

Concerted effort has been made by several large organizations and prominent supporters of the Army's work in America to induce Miss Booth to move Miss Booth and place the American Salvation Army under three commissioners who would report directly to London headquarters.

Danville Is To Have Community Chest Campaign

That Danville is to have a Community Chest is now a certainty. E. Carrington, president of the Community Chest yesterday announced that all of the budgets for the eight participating organizations had been approved after careful investigation by the committee and a final schedule adopted.

The total budget as approved calls for a total of \$75,000 to provide current expenses for the eight following agencies: Hilltop Sanitarium, Y. W. C. A., Y. M. C. A., Community Welfare Association, Travelers Aid, Salvation Army, Danville Public Library and American Red Cross. In addition to providing funds for the coming year, this budget provides for back expenses of Hilltop and the Community Welfare Association who have passed the end of their fiscal year and have not had a campaign of their own due to the pending Community Chest Campaign. This fact has increased the amount of the budget by about \$10,000 over what it would be for a normal year.

Upon the adoption of the budget consideration was immediately given to the matter of a campaign for raising the funds. The Community Chest is not only a combination of eight organizations which would otherwise have separate campaigns but it assures the public that no appeal for maintenance will be made by any of these organizations in the next twelve months thereby saving duplication of effort and the annoyance of numerous individual appeals. The Young Men's Business Club has kindly consented to give the use of their rooms for temporary headquarters where the detail work in connection with the campaign has been started.

The Community Chest is welcomed in Danville by many of our progressive citizens as a forward step as similar Chests are now in satisfactory operation in cities of varying size all over the country. Lynchburg, Petersburg, and Greensboro, N. C., and Petersburg, Va., have recently adopted them and all have had satisfactory and successful campaigns.

A special campaign organization will be formed, headed by an Executive Committee which will be in direct control of the campaign. This committee is now being formed and will meet at an early date.

Approval of the Community Chest and endorsement has already been voiced by the Chamber of Commerce, Young Men's Business Club, Rotary Club, Kiwanis Club, Lions Club, Wednesday Afternoon Club, Ministerial Association and many other organizations.

Lady Astor Is Congratulated

Danville yesterday showed interest in the success of a native daughter when congratulatory cables were dispatched to Lady Nancy Astor at Plymouth, reiterating her upon her reelection to the House of Commons.

One was sent by Mayor Harry Wooding, for many years a friend of the Langhorne family and other relatives of "our Nancy." This telegram followed:

"Viscountess Nancy Astor, Plymouth, England.

"We have just heard of your success so richly deserved and so splendidly won. You have our warmest congratulations and all good wishes for the future. May it bring to you the rewards which are your due."

"HARRY WOODING, Mayor."

The other message was a personal one, sent by Colonel A. B. Carrington, who was master of ceremonies at the time of her visit to Danville last May. A good many people expressed interest in Lady Astor's role in the general election yesterday, and the Associated Press dispatch received by this paper, announcing that she was unquestionably re-elected was a source of satisfaction to those interested in her.

HOLD TOURNEY IN FEB

ST. PAUL, Nov. 16.—The 1923 tournament of the International Bowling Association will be held in St. Paul February 9 to February 19 inclusive. The board of directors announced today. The entry list will close January 20.

—Mrs. Berryman Grant, left today for Greenville, S. C., to be with her daughter Mrs. N. J. Haden, who has been ill for some time.

Plan Special Law To Legitimize Hundred Children

NEW YORK, Nov. 16.—A special act of the Legislature may be necessary to legitimize about 100 children, and to ratify the remarriages of victims of Herbert P. Miller, the "divorce mill operator," who obtained decrees in many courts in 1919, 1920 and 1921 through a force of trained witnesses and by forging decrees.

"More than 100 of these fraudulent decrees have been traced," said Bennett E. Siegelstein, of 95 Nassau street, who appeared in court yesterday for Samuel B. Foster, an American consular officer at Buenos Aires who was forced to return to this country because of the discovery that his "Miller divorce" was worthless. "Litigation following from this situation will be in the courts for years if not generations," said Mr. Siegelstein. "There are 100 or more children of men and women who have remarried after Miller divorces. Technically, these are all bigamous marriages except where the parties obtained new divorces after discovering the frauds. There probably will be cases forty years from now where estates will turn on the point of whether a child of the second marriage was dissolved by a Miller divorce."

Injury by Technicality.

"My client for instance obtained in good faith a divorce in which he was represented by Miller. In that case, Miller actually put witnesses on the stand before Supreme Court Justice Senger and won the case. The only thing wrong with the proceeding was that Miller was not a lawyer in New York State. He had been admitted to the bar in the West but he was not entitled to practice in New York, and the divorce probably is void. "After the divorce, Mr. Foster went to Argentina in the government service. When he learned about the Miller divorce, he made inquiry and found that he was in law still bound to the wife from whom he thought he had obtained a divorce. He came back here to sue again, and on a technicality was arrested for libel on the ground that he was the daughter of an Oklahoma ranchman. On his proof that he acted in good faith in supposing that he was divorced these charges were dismissed. A suit probably will be started over again to make the divorce regular."

"I am preparing an act to submit to the Legislature which would legitimize the remarriages of parties to these Miller divorces, where both sides have innocently remarried. This act would make such divorces valid without further action. Many other clauses would have to be added to remedy all the evils of these divorces."

Not Entitled to Practice.

Most of Miller's first divorces were correctly obtained with the sole exception of the fact that Miller was not a lawyer in New York State. Later Miller developed a small company of professional witnesses to be used when it was decided his real witnesses would make a bad impression on the court. He later conceived an idea of selling divorces outright so that his fees were 100 per cent profit. He simply manufactured a decree for the name of a Judge to it, and fled it.

FIRE IN WHITE MILL.

Fire in the White mill at 5:30 o'clock yesterday evening resulted in a fire alarm No. 123 being sounded, this calling to the scene the Patton street and North Danville companies. A short circuit in an electric wire had, apparently, fused a fire and the molten metal ignited cotton in some of the frames. The flames running quickly underneath the machines and spreading rapidly. The mill's fire prevention devices were effectively used, pending the arrival of the local companies.

—Mr. Harrison Armistead of Wilson, N. C. is the guest of his mother, Mrs. Edward W. Armistead.

When Scotland Yard Was Fooled

This disguise proved too much for the best detectives of London. It was adopted by Albert Close who had been forbidden to attend the meeting of the Commission on Awards to Inventors. Close is an inventor and detectives were stationed at the doors of the building to see that he did not appear. Disguised as above, he marched through the line of police. Then came the coup de theatre when he removed the whiskers and addressed the commission.

Skeleton Found Hidden In Woods; Murder, Theory

Unidentified Man's Throat
Cut and Body Taken
There, Police Believe;
Outer Clothing Apparently
Removed.

NORFOLK, Va., Nov. 16.—The skeleton of an unidentified man who apparently had been murdered was found yesterday in a patch of woods near the Norfolk and Portsmouth Belt Line Railroad bridge across the Southern branch of the Elizabeth River.

The skeleton was discovered Sunday by Sam Menden, a negro bridge tender, who reported it to a Mrs. Roberts, at Oak Grove. Mrs. Roberts reported the fact to Justice of the Peace J. M. Langhorn, at Portlock, yesterday morning, and he had the bones taken to his office.

The skeleton was discovered Sunday by Sam Menden, a negro bridge tender, who reported it to a Mrs. Roberts, at Oak Grove. Mrs. Roberts reported the fact to Justice of the Peace J. M. Langhorn, at Portlock, yesterday morning, and he had the bones taken to his office.

Detective C. H. Burch, of the Norfolk Police Department, examined the body last night in an effort to establish the identity of the man, but was unable to do so. He is of the opinion that the man's throat was cut and that his body was carried by the murderer to the place where it was found. He based his belief on the numerous bloodstains which were found about the neck of the skeleton and upon the fact that the body as well as upon the fact that all the man's outer clothing was missing.

Detective Burch expressed the belief, from the condition and quality of the clothes found on and near the skeleton that the man was killed and later robbed.

The only clothes found were a shirt, a pair of silk socks, pair of shoes, and a straw hat. The hat was of a heavy yellow straw and had the trademark of Shulman and Company, of Norfolk. The shoes were made by the Florsheim Company and were of a dark brown brogue size number 8.

No mark of identification could be found on any of the clothing. The man's hair was chestnut and was highly grey, which led the officers to believe that he was between 30 and 38 years old.

75 Yards From Road.

The spot at which the skeleton was found is only 75 yards from the highway and about 250 yards from the Belt Line Railroad tracks. The spot is fairly secluded, although there is a network of footpaths here and there through the wood.

The bones were scattered over a radius of 15 or 20 yards and were bare of any flesh. No trace could be found of any outer clothing or of any letters.

Believing that the murder was committed during June or July, Detective Burch searched through the records of missing persons for those months. He found two men whose general descriptions answer as nearly as could be ascertained last night with that of the dead man. Detective Burch said last night that the body might possibly be either that of W. H. Shanton, 45 years old, 1614 Highland avenue, Portsmouth, who disappeared last May, or that of John W. King, 33 years old, R. F. D. No. 2, box 187, Norfolk, who was reported missing on June 22. No steps could be taken last night to get in touch with relatives of either men, and it was considered barely possible this man may be one of the two.

Good Morning Judge!

It required but about 15 minutes to clear the docket in the police court this morning, the only case being heard was that of Nannie Gilliam, colored, charged with maintaining a disorderly and ill-governed house on Union street. The negroess was fined \$20 and costs.

The case of Fred Presnell, arrested last night on his second Mapp act violation, was continued until Monday, at Presnell's request, who stated that he wanted to get his witnesses and an attorney. He is charged with selling ardent spirits to three farmers. The evidence of two of them was taken this morning, because of the distance they live from Danville. They testified that they got a drink of whiskey from Presnell but that no money was given the man.

A. B. Pennington was ordered taken before Magistrate W. E. Griggs for examination because of his habitual use of narcotics drugs and alcohol, causing a warrant charging him with being dangerous to the public.

Chances of Third Party Slim, Washington Thinks

WASHINGTON, Nov. 16.—Out of the program for progressive legislation that is to be formulated after the representatives of those dissatisfied with the performance of the old parties reach Washington may grow a third political party, but the chances are against it.

The victories of the Farmer-Labor Party in the West, and the related successes of candidates in sympathy with it, not members of that group, have encouraged talk of an organization to be the progressive elements of the democracy and the G. O. P., but there is little echo of that in the East.

The word from William H. Johnson, of the International Machinists, there would be a third party conference in Chicago on Dec. 11, is to mean the confederation of farmers and the workmen that Johnson means to survey the field.

Determine if a third party can be made of local and national-wide.

The theory of the progressives at Washington is that they can carry their program on the Republican and so galvanize the old parties.

Mrs. Felton Yet May Have Chance to Sit in Senate

ATLANTA, Ga., Nov. 16.—Strong probability that Mrs. William H. Felton will take her seat in the United States Senate as a junior representative in the upper house from Georgia.

That long convalescence in extraordinary condition Monday, was indicated today, when Secretary of State S. G. Hays refused to sign the commission of Judge Walter F. George to the Senate.

George's inability to countersign the commission, because of his absence from the capital, was given by Secretary Hays as the reason for his stand.

Approved of Mr. McIlendon's stand, Mrs. Felton made ready at her home in Cartersville to leave at once for Washington.

Judge George, however, is expected here tomorrow to demand that his commission be signed.

—Rev. J. Armistead Welbourn, of Tokio, is the guest of Mrs. Edward W. Armistead.

OPEN SATURDAYS UNTIL 9 O'CLOCK

Saturday Is Always a Good Day To Shop At Herman's

Among the Interesting Offerings For Saturday

STOCK MARKET

(Associated Press Leased Wire.)
NEW YORK, Nov. 17.—Opening prices in today's stock market were irregular on the resumption of yesterday's selling movement in some of the low price rail, independent steel and oil shares when the early selling orders had been absorbed, however, prices started to move up in response to a brisk demand for United States Steel, Baldwin, Studebaker and some of the food canned and textile shares.

TICKER TALK

Courtesy of Thomson & McKinnon
NEW YORK, Nov. 17.—General Motors declares special dividend of 50 cents on common. Net earnings for 1922 will approximate \$55,000,000.

Poincare and Curzon to meet Premier Mussolini Monday to sign 3-power agreement to be presented to Turks at Lausanne.

British press expresses much concern at great gain of Labor in election.

Pacific Oil earned \$2.83 against \$3.79 in 1921.

Northern Pacific Line declares extra dividend of \$15 and regular semi-annual dividend of \$5.

Federal Reserve system ratio declines from 76.4 to 75.2.

New York Federal Reserve bank ratio declines from 80.6 to 78.7.

New York Transit Co. former Standard Oil subsidiary declares cash dividend of \$80 per share.

Hearings before I. C. C. today on plans for merging Burlington either with Great Northern or Northern Pacific, and on disposition to be made of Central Pacific.

ENGLAND EATS EGGS
LAID ON THE NILE
(By The Associated Press.)
ALEXANDRIA, Egypt, Nov. 16.—During the first six months of 1922 Egypt sent 100,000,000 eggs to England.

Woman's Smile Saves Her From Death Penalty

Wealthy Woman Held on Forgery Charge

PATERSON, N. J., Nov. 16.—Mrs. Emily F. Todd King, former wife of the late F. C. Todd, a wealthy silk mill owner of this place, was arrested today in Port Jervis by Detective William Elvin of Paterson and Chief of Police Morehead of Port Jervis, N. Y., and held in \$5,000 for extradition on a charge of forgery. Mrs. King, who owns one of the most pretentious houses in this city, has been living at 16 Forest street, Port Jervis. She was indicted as the result of a complaint made by Daniel H. Murray, vice president of the Paterson National Bank. It is alleged that she raised a check from \$55 to \$1,395. According to the police Mrs. King on September 30 presented a check to the bank drawn on a Port Jervis bank and endorsed by A. L. Simon, a local clothier. She received in turn, it is alleged \$1,395. The check was returned marked "not sufficient funds." Mr. Simon said that the check he had endorsed called for \$95 and not the sum it was alleged to have been made out for when presented to the bank.

After the death of Mr. Todd, her first husband, she married a conductor on the Erie Railroad.

MISS ROBERTSON HUNTS JOB

KANSAS CITY, Nov. 16.—The lame duck will have to get its plumage in order before it determines where it will fly next. Miss Alice Robertson, defeated Oklahoma Representative, said today when asked about her plans after March 4.

"I don't know what I want to do, but the good Lord goes, and he will direct me," she said. "I sold my cafeteria business, and of course it is not easy finding a job at 60 or getting back to work and something suitable will show up. I'm sure."

She shows no physical detriment from the strenuous campaign she was in recently. For two months she averaged almost one hundred miles daily, she says, most of the distance over country roads. She has no complaint of her treatment in Washington.

"The Congressmen have been wonderful to me," she said. "Never once have I felt disturbed, embarrassed or neglected because I was a woman. They have shown me only the highest respect and courtesy."

COTTON MARKET

(Associated Press Leased Wire.)
NEW YORK, Nov. 17.—Yesterday's big break was followed by nervous and irregular fluctuation in the cotton market at the opening. The local market opened steady at an advance from 2 1/2 to 2 3/4 cents, but quickly sold from 25.37 to 25.15 or within low points of yesterday's closing but there appeared to be no buying and more demand in this line and the market slided some 3 to 4 points.

Cotton opened steady:

December	25.30
January	25.20
March	25.25

COTTON FIGURES

(Associated Press Leased Wire.)
WASHINGTON, Nov. 17.—Cottonseed crushed during the three months, August 1 to October 31, 971,382 tons, compared with 1,011,566 in the same period last year and the quantity on hand at mills October 31, 77,197 tons compared with 72,651 tons the Census Bureau announced today.

Jurors in the Phillips Case

Admit Her Alluring Lips Spared Her From the Gallows

(Associated Press Leased Wire.)
LOS ANGELES, Nov. 17.—Men members of the jury which found Mrs. Clara Phillips guilty of second degree for beating Mrs. Alberta T. Meadows to death with a hammer, were quoted today as saying that Mrs. Phillips' smile saved her life. Had it not been for this she probably would have been convicted of first degree murder, leaving death the only penalty.

"And she has the most appealing smile I ever saw" was the way one juror said. But the women jurors were not affected by it, it was stated, as all three favored a verdict which would have sent her to the gallows. They found a compromise was necessary to avoid disagreement. With the defense planning to ask a new trial on Monday the time set for passing sent any period of years from 10 to life, state counsel said they had no comment to make.

EDUCATORS IN '23 GO TO CHARLOTTESVILLE

BALTIMORE, Nov. 16.—The Association of American Universities at the close of its convention here last Saturday, accepted the invitation of the University of Virginia to hold its next meeting at Charlottesville. The University of North Carolina was added to the list of institutions having graduate schools affiliated with this association.

Dr. Harry Pratt Judson, president of the University of Chicago, in an interview, said reports from all parts of the country on graduate work indicate there is no longer any justification for any city or section to regard itself as the center of the learning. The progress everywhere is such that old distinctions are being wiped out, he declared, insisting that there is no foundation now for the idea of long prevalent, and, of course, justified until more recently, that the west is behind the east in education. As to graduate work now, he pointed out, the west has thousands for the hundreds in the east.

HUNGARIANS TAKE STEPS TO SUPPRESS FASCIST MOVEMENT

BUDAPEST, Nov. 16.—The Hungarian Government is pursuing actively the measures it has inaugurated for the suppression of the Fascist movement in this country and has made known its intention of acting with the utmost energy against certain political personages of importance if they, as required, are concerned in the movement.

The exceptional powers given the Government during the war will expire shortly, but the Government has decided to introduce a bill retaining the right of issuing decrees for purposes which are still considered necessary in this connection.

—Mrs. W. A. Arrington of Penhook, who was brought to the General Hospital several days ago, for treatment is reported better.

—Mrs. W. D. Burwell of Princeton, W. Va., who was called here on account of the illness of her sister, Mrs. W. A. Arrington, has returned home.

BANISH NERVOUSNESS

Wendell's Pills, Ambition Brand, For Run-Down, Tired Out People

If you feel tired, out of sorts, despondent, mentally or physically depressed, get a box of Wendell's Pills, Ambition Brand, at Frank McFall's drug store. It will make you feel better in three days or money back from Frank McFall's drug store. Seed store and the first big step toward feeling better right away.

If you work too hard, smoke too much, or are nervous, Wendell's Pills, Ambition Brand, will make you feel better in three days or money back from Frank McFall's drug store. Seed store and the first big step toward feeling better right away.

As a treatment for affections of the nervous system, constipation, loss of appetite, sleeplessness, or nervousness, get a box of Wendell's Pills, Ambition Brand, today on the money back plan—adv.

A BANQUET THAT WAS ALMOST A TRAGEDY

Three years ago at a banquet I was stricken with acute indigestion. Two doctors worked over me for an hour before I came to. I had had severe colic attacks before, but nothing like that. No doctors or medicine gave me permanent help until a friend advised me to take a course of May's Wonderful Remedy, which I did with wonderful results. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach and intestinal ailments, including appendicitis. One dose will convince or money refunded. J. C. McFall's Drug Store, Trenton, N. J., and Druggists everywhere—adv.

Great For Bad Coughs and Colds

Make Your Own Medicine and Have the Best There Is.

You'll Say It's Good When All Mucus Disappears and Clear Healthy Membrane Is Your Reward

Here is an inexpensive home made remedy that you can't beat and one that will quickly bring up that phlegm, stop the sniffling, clear the clogged nostrils, make breathing easy and cause stubborn colds and persistent coughs to vacate—many times over night.

Try it right away if you suffer from Catarrh, Chest Colds or any irritating cough or throat trouble and you'll be glad you run across this little bit of advice.

Get from any druggist, one ounce of Parment (double strength) add to it a little sugar and enough water to make one half pint. You can make it in two minutes and when it is mixed you can pride yourself on having a medicine that acts directly on the membrane of the nose and throat and acts so effectively that all phlegm all tickling and inflammation speedily disappears, adv.

Refreshes Weary Eyes

When Your Eyes feel Pull and Heavy, use MURINE. It instantly Relieves tired eyes. Makes them Clear, Bright and Sparkling. Harmless, Safe and Recommended by All Druggists.

Younger Defeats Lloyd George

LONDON, Nov. 16.—(By The Associated Press.) The long-drawn-out fight between the younger Premier Lloyd George and Sir George Younger has for the time ended with victory for the younger Premier. Lloyd George, with his adherents, staked their political fortunes at the famous election, the result of which was the defeat of the older Premier and the election of Lloyd George into the office of the Prime Minister. The result of the election was a return to the old party politics and in the firm belief that the nation would support the younger Premier, Lloyd George's victory was a foregone conclusion.

Their confidence has been amply justified. Yesterday's elections have returned a Parliament with almost the same overwhelming predominance of the younger Premier's supporters as the Parliament elected in 1918. In the new Parliament, Lloyd George has a command of a majority over all parties combined of approximately 80.

While this can not be properly described as a landslide as the conservatives at the time of the dissolution of Parliament numbered about 380, it amounts almost to the same thing, considering the peculiar circumstances of the time and the high hopes held by the labor and liberal parties of the return of the country to progressive views, and it may be supposed that the conservatives themselves hardly expected such favorable results.

A Parliament with little changes, except that Mr. Bonar Law replaces Mr. Lloyd George as prime minister and that the former premier's adherents follow of national liberals, is the result of the election. Lloyd George will presumably henceforth be in opposition instead of working in cooperation with the conservatives.

The downfall of Lloyd George is the outstanding feature of the election. The coalition liberals at the dissolution numbered 129, they are represented in the new Parliament by only 44 members. There will be many regrets among the former premier's adherents that he failed to take the advice of some of his well-wishers and that he had not altogether from the political stage.

The Asquithian liberals lately improved their position, rising from thirty-four in the old Parliament to thirty-two in the new, but they did not do so well as they expected. On the other hand, the labor party, which was to fulfill the high hopes the party entertained at the dissolution, has done exceedingly well, rising from 78 to 136 seats. It is generally believed that labor would have done far better had it not been for the mistake in its advocacy of a capital levy.

While the strength of conservatism in the country is a matter of surprise, perhaps the keynote of the elections is the decline of liberalism and the rise of the labor party. This seems to show that henceforth the struggle will be between the conservative and the labor party.

The position now is that labor is the second strongest party in the House, and in what looks as the probable event of the present government, the labor party, which it would be the labor party that the King would naturally turn for a new premier.

Another striking feature of the elections is that the women voters have taken quiet and unexpectedly strong interest in the struggle. Their participation probably accounts for more than anything else for the exceedingly heavy polling. But, however, keen their interest in political life, they do not appear to be in the mood to elect women to Parliament, only Lady Astor and Mrs. Winthrop, already in the House, being returned.

Estimates on the present distribution of parties in the House of Commons differ somewhat owing to a certain confusion in party boundaries and the number of isolated members representing in six groups, such as co-operators.

Included in the conservative group are 13 Ulster conservatives. There are still ten seats, the results of which will not be named tonight, namely some of the universities and distant scattered Scottish constituencies, for which the results may not be available before Saturday.

There have been many noteworthy casualties among all the parties, the most striking perhaps being the defeat of Arthur Henderson, labor leader, and Winston Churchill, former colonial secretary and the overthrow of five members of the new administration for whom safe seats will somehow have to be found.

The defeat of Mr. Churchill, Sir Hamar Greenwood, former chief secretary for Ireland and Frederick G. Kellaway, former postmaster general were severe blows to Mr. Lloyd George, who however, had the satisfaction of seeing his son named by a big majority while both his secretaries, Sir Edward M. Grigg and G. H. Shakespeare, were elected.

Mr. Asquith himself, had a narrow escape from defeat and his chief lieutenant, Sir Donald Maclean and Walter Runciman were down.

Major Lloyd George, the former premier's son, had an enormous majority of Pembroke, his poll being 1,000 to 1,000 for the laborer, J. E. B. But the Georgeite liberals continued to fare badly and although the younger George was elected unopposed in the parish of the Georgeite candidate, Mr. E. B. Breeze was defeated in the county of Carmarthen by Mr. R. T. Jones by more than 1,000 votes.

The return was the real test of the new Premier's popularity. The result, despite the recent defeat of the proposed abolition of the House of Lords, was a foregone conclusion.

Issues Involved In Dyke Question ARE TAKEN UP

WASHINGTON, Nov. 16.—(By The Associated Press.) The House of Representatives today took up the question of the proposed abolition of the House of Lords, a subject which has been the subject of much discussion in the past.

The House of Representatives today took up the question of the proposed abolition of the House of Lords, a subject which has been the subject of much discussion in the past.

ONE-THIRD OF SMOKERS BUY 8-CENT CIGARS

WASHINGTON, Nov. 16.—Although the consumers of ten-cent cigars comprise the biggest percentage of American smokers, nearly one-third of those who worship faithfully at the shrine of Lady Nicotine will not pay more than eight cents for a smoke.

These smokers of eight-cent cigars, the Department of Commerce reveals in an analysis of the tobacco year, used up 80 per cent. of the 7,368,000,000 large cigars manufactured in this country in 1921. They smoked 2,186,000,000 cigars, paying in price from five to eight cents.

Forty-two per cent—3,079,000,000—of all the cigars were sold by manufacturers to retailers at prices ranging from nine to fifteen cents. Only 12 per cent—213,000,000—of the total number of cigars were sold to the consumer at more than fifteen cents, while 25 per cent—1,890,000,000—were turned over to retail dealers to be disposed of for not more than a nickel apiece.

The Department of Commerce pointed out in its report that the character of the cigar manufactured in the various districts vary greatly.

About three-fourths of the total production in Florida, it is stated, were intended to retail for more than eight cents each. On the other hand, about 85 per cent of the total production of Virginia were intended to retail for not more than five cents. West Virginia and the Twenty-third District of Pennsylvania the home of the "stogie," also show a very large percentage of the total production to retail for four cents or less.

Figures compiled by the census bureau show that 48,743,900,000 factory-made cigars were manufactured in consumption in the United States in 1921, in addition to 2,446,000,000 cigars which were exported. At this rate the average per capita consumption of factory-made cigars in 1921 was 400.

According to the census reports, 1,472,000 acres were planted in tobacco in 1921, and the production of the crop amounted to 1,117,642,000 pounds, which compares with 1,382,000,000 for 1920. There were imported 21 during the year leaf tobacco and tobacco valued at more than \$50,000,000, while the exports of leaf tobacco were valued at approximately \$2,500,000.

The reported production of cigars in registered factories and in bonded manufacturing warehouses was 9,541,695,000 pounds of cigars, 24,277,000 pounds of chewing and smoking tobacco and snuff, 414,000,000 pounds.

The government collected \$254,045,000 in taxes during the year in tobacco taxes. Of this total, North Carolina contributed \$79,557,000, New York \$44,189,000, Pennsylvania \$22,400,000, New Jersey \$24,819,000, Virginia \$18,557,000, and Ohio \$14,200,000.

HEIR BRAIN CRUSHED BUT OUTSIDE OF HEAD INTACT

NEW YORK, Nov. 16.—Mrs. Max Kahn died recently from injuries that mangled half a dozen eminent specialists. An operation disclosed that the brain was crushed, but that there were no exterior indications whatever. She was hurt in an auto accident.

Reserve Decision On Proposal To Merge Companies

WASHINGTON, Nov. 16.—Government officers reserved decision today with regard to the proposal for a consolidation of Armour and Company and Morris and Company, two of the "big five" Chicago meat packing concerns, which was placed before them yesterday by J. Ogden Armour. It was indicated that a final opinion would not be forthcoming for some days.

Meantime, the various details of the consolidation plan and its probable effect on the industry as a whole and the producing and consuming public were being carefully studied at the Department of Agriculture. Chester Morrill, assistant to Secretary Wallace who is in charge of the administration of the new packers and stockyards control act, held all day conferences with departmental experts on marketing and other related lines.

Mr. Armour had expected an early decision by the government. He remained in Washington and during the day had half an hour's conference with President Harding. He declined to talk about his conference with the executive, nor was any statement regarding it forthcoming from the White House. So far as was learned, Secretary Wallace, had not taken up the Armour plan with Mr. Harding.

Attorney General Daugherty was confined to his apartment at a hotel with a slight indisposition but at the Department of Justice, it was indicated that the question was not receiving immediate consideration, since no plan in detail has been submitted.

Officers of farm organizations in Washington were watching developments in connection with the proposed consolidation. Gray Silver, for the American Farm Bureau Federation said the matter had been discussed with officials of his organization by those interested as a matter of information. He stated that the federation had not asked for a hearing before the Department of Agriculture, but added that this did not mean necessarily that it might not be requested as an immediate decision by the Department was not anticipated.

At the offices of the National Grange it was stated that no official information respecting the proposed consolidation had been obtained and that any official action of the Grange would be made at the annual meeting now in progress at Wichita, Kansas.

Benjamin C. Marsh, of the Farmer's National Council, announced that he was writing Secretary Wallace and Attorney General Daugherty for full information concerning the Armour plan and suggesting that there be "more packer control through legislation and less of packer control of the government."

While Mr. Armour still declined to discuss the proposed acquisition of Morris and Company by the concern of which he is the head, information from other sources was that such a consolidation would place Armour and Company in the front ranks of the Big packing concerns. The company, with its capital of \$150,000,000 and capital assets of \$177,000,000 has various packing plants in this country as well as in South America and Australia. Morris and Company has half a dozen packing establishments in the United States and distributing stations in the more important cities in Europe and in Cuba. Its capital is \$40,000,000.

One immediate result of a merger would be a general consolidation of the facilities of the company, and more practical distributing agencies and rolling stock. This phrase of the consolidation plan was understood to have been dwelt upon in the formal proposal laid before the Department of Agriculture.

Reported Engaged to Chaplin

Eleanor Boardman, famous film beauty, is about to become the second Mrs. Charlie Chaplin according to reports from California.

U. D. C. ELECTS NEW OFFICERS

BIRMINGHAM, Ala. Nov. 16.—After election of national officers at the morning session, a luncheon at which each state was represented at a separate table and an automobile tour of the city this afternoon delegates to the annual convention of the United Daughters of the Confederacy tonight observed historical evening.

A lively fight developed in the annual election between Mrs. W. E. R. Byrne, of Charleston, W. Va., and Mrs. Chaplin, of Birmingham, for the office of recording secretary general. Mrs. Byrne was elected by a majority of 154 votes.

Mrs. Livingston Rowe Schuyler, of New York, was re-elected president general.

Other officers are: First Vice President General, Mrs. Frank Harold Americas, Ga.; Second Vice President General, Mrs. Frances E. Ross Riverside Calif.; Third Vice President General, Mrs. W. E. Mass, Hot Springs Ark.; Treasurer General, Mrs. H. T. Jennings, St. Louis; Historian General, Mrs. St. John A. Lawton, Charleston, S. C.; Registrar General, Miss Ida Powell, Chicago.

While it was expected that the matter of remodeling the memorial chapel at Washington and Lee University would be brought up at the morning session, the election occupied the entire period and this question was postponed until later sessions.

The Virginia delegation is said to be divided on the proposition some

Better Art In Paris Solon This Season

PARIS, Nov. 16.—American exhibits at the Paris Autumn Salon are more numerous and perhaps more interesting than those of former years. These seem to be a definite departure from the cubist and "dada" traditions. The pictures are not purely this year. Landscapes and portraits have not been neglected, but nudes hold an important place.

Robert Hostater, of Marysville, Cal., shows a striking nude called "The Woman with the Blue Stockings," remarkable for its strength and finely shaped head. Another by Robert Johnson, a mother and child, is attracting a good deal of favorable comment. "The Sleeping Woman," a nude by Arthur Franck, of Philadelphia, gives an unusual idea of sleeping, but the body is thick and heavily shaped. As in another of his studies, "The Woman with the Lemons," but one wonders what the lemons have to do with her.

Will Hollingsworth, of Louisville, Ky., has a lovely series of water colors much in the style of Whistler. J. Barry Greene, of New York, and Eleanor Hay also exhibit some attractive little essays in coloring.

American landscapes include Kenneth Adams, from Topeka, Kan., with a view of Casals and Bion Barnett, of Jacksonville, with a Corsican scene. Elizabeth Percum, of Philadelphia, has been painting the lovely River Loing and exhibits a view of picturesque Moret. Otis Dudley, of New York, has some charming Brittany scenes.

American artists are also the force in the still life and flower sections, with Bailey Foster, James Butler and P. H. Bruce.

They are more rare in the sculpture section, but the bust of Mme. S., by Jo Davidson, the well known New York sculptor is worth noticing. Cecil De Blaquiere Howard from Niagara, has five delightful bronzes scattered here and there throughout the rooms.

"La Vierge a l'offrande," the offering Virgin, an immense statue 20 feet in height, dominates the great staircase. It is the work of Louis Bourdelle, at the same time a bronze sculpture, the Virgin of beautiful face, is offering her child to humanity as a promise of consolation. When finished in stone the monument will dominate a great hilltop in Assisi.

At the foot of the same staircase is a superb and expressive white bronze by Pomponi in glistening white stone. This sculptor has sent a perfect menagerie of beasts large and small.

French artists have the bulk of English are numerous. The celebrated Van Dongen, a Dutchman, has an interesting "Neptunus," very decorative.

and colorful. With his many head necklaces and earrings, his naked body and rose-colored face, one thinks of a Hercules of the Quat'z Arts.

The canvas called "The Crystal Palace at Antwerp," by Favory, undoubtedly draws the largest crowd of curious onlookers. In a dimly-lighted cabaret the artist shows many half-clothed women playing with sailors and soldiers in debauching scenes. It is full of movement and the vivid colors of Renoir, but it is not as delightful to look upon as the charming "Woman With Bracelets," by Charles Guerin, which many consider to be the best painting of the collection.

"You know, mama," one little girl said to her mother as they walked through the Salon, "the pictures are much prettier than last year." She couldn't have passed her sixth year, but her judgment seems to be pretty sound.

Lobsters evidently use their claws for working purposes, as well as for weapons, having been observed carrying small stones with them while engaged in burrowing.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with twofold action. It soothes and heals the inflamed membranes and kills the germ.

If all known drugs creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung trouble. Creomulsion contains in addition to creosote other healing elements which soothe and heal the inflamed membranes and stop the irritation where the creosote goes on to the stomach. It is absorbed into the blood and attacks the very of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchitis, asthma, bronchitis and other forms of throat and lung trouble. It is a safe and reliable remedy for building up the system after colds or the flu. More than nine out of ten coughs or colds no matter how long standing, will clear up after taking Creomulsion. Creomulsion Co., Atlanta, Ga.—adv.

RACING MAN QUILTS FRENCH TURF; NOT FAIR, HE CHARGES

PARIS, Nov. 16.—Charles Jefferson, English racing proprietor, who has been representing the French turf since 1898, has announced his intention to resign from the French Turf Club. He has done this because of the unfairness of the French racing system, which he charges is a "closed shop" for the benefit of the French racing men.

STRIKE'S NEW NOTE

A new note in photoplay endings was struck in Thomas Meighan's latest Paramount picture, "If You See Her, Say Hello to Her Mother." The story is set in the Broadway theatre, where the hero, played by Meighan, is a successful actor. He is in love with a girl who is also a successful actress. The story is a love story, and it is a very good one.

"NICE PEOPLE" COMING SOON

"Nice People" is coming to Danville soon. This is not a new movie, but it is a very good one. It is a story of a man who is in love with a girl who is also a successful actress. The story is a love story, and it is a very good one.

Has a Woman Right To Kill Self? Question Stirs All England

MRS. MAUD HIBBERT.

By MILTON BRONNER
NEA Service Staff Correspondent.
 LONDON, Nov. 17.—Has a woman a right to commit suicide? Should she be sent to prison for attempting self-destruction? The law says "No" to the first question and "Yes" to the second. Scores of the most distinguished persons in Great Britain protest the law is wrong. The controversy, growing spectacular, revolves around Mrs. Maud Hibbert, survivor in a suicide pact with a man. After lying in jail for weeks awaiting trial on a charge of attempting suicide, she was convicted and sentenced to serve nine months in prison at hard labor. Half of Mrs. Hibbert's sentence has gone by and petitions for clemency have been sent to the home secretary, arguing that she was "led away by the man, has already suffered punishment and that such a punishment is not calculated to increase her respect for life nor act as a deterrent to others." Says John Drinkwater, famous playwright, one of the signers of the petition: "Before a woman reaches a frame of mind which leads to such an act she must have endured the greatest possible mental agony. To keep her in prison on top of that seems to me both cruel and futile." Stephen McKenna, novelist, says: "I hold the view that anybody's life is the property of that particular person. If you wish to take your own life you ought to be allowed to do so. Suicide often is hard on one's family, but I don't think any department of the government has the right to keep people alive if they don't want to live." The case is attracting great attention because in some cases under the British law the survivor in a double suicide pact can be indicted for murder as well as for attempting suicide. Hibbert is a widow, Mrs. Maud Hibbert, coal operator and suffragist; May Sinclair, novelist; Mr. Wintlingham, member of Parliament; Miss Clemence Dane, playwright; George Bernard Shaw, John Massfield, G. K. Chesterton, Maurice Hewitt, Arnold Bennett, H. G. Wells, John Galsworthy, E. F. Benson, Sir Henry Newbolt and Bertrand Russell.

NORTH CAROLINA WILL MAKE GRAND INVASION OF VA.

CHAPEL HILL, Nov. 16.—Not since the Old North State poured her soldiers into Virginia sixty-one years ago, to swell the Confederate armies, have so many North Carolinians gone northward over the line as will go week after next to see the Carolina-Virginia football game. Or, so it would appear from the telegrams and letters that are coming in a steady flood into the office of the graduate manager of athletics, Charles T. Woolen. "Tickets! Tickets! We want tickets!" is the burden of the cry, not only from alumni but also from other North Carolinians who look upon the game as something far more than a college affair—a test of strength and mettle between Virginia and North Carolina. Mr. Woolen is having to pass the requests on to Charlottesville. Special Pullman cars are to be run to Charlottesville from cities and towns all over the State, from Asheville in the mountains, from Wilmington on the coast, and from probably more than a score of places in between. The railroads, Southern A. C. L., Norfolk and Southern, and the rest, are advertising special excursion rates. Every day news comes to Chapel Hill of some new party that has been made up. And there will be many who go by automobile. Of course the string of Carolina victories this season has a great deal to do in the widespread enthusiasm about making the trip. The triumph over V. M. I. in Richmond last Saturday was all that was needed to bring North Carolina fans to the boiling point. V. M. I. beat Virginia 13 to 0, and Carolina beat V. M. I. 21 to 0. Plainly this indicates a good chance for Tar Heel success on Thursday. Carolina expects to bring North Carolina fans to the boiling point. V. M. I. beat Virginia 13 to 0, and Carolina beat V. M. I. 21 to 0. Plainly this indicates a good chance for Tar Heel success on Thursday. Carolina expects to bring North Carolina fans to the boiling point.

VIRGINIA SQUAD LEAVES ON LAST TRIP OF SEASON

CHARLOTTESVILLE, Va., Nov. 16.—Virginia's football squad has left on the last trip of the season. Last night the students saw the team go out bound for Morgantown, Va., where the University of West Virginia will be played tomorrow afternoon. The trip is a long one, and the team will stop over in Fairmont, W. Va., for a rest and a workout this afternoon. Coaches Campbell and Abel used a reorganized backfield in the final scrimmage of the week. Sam Mayhew was hurt in the Georgia game and Hal Little has been taking his place while Paul Walp has been trying to take the place of Benny Arnold while this speedy halfback was nursing a sprain on the line. Fred Thesmar, whose injuries in the Princeton and Richmond games caused him to stay out of the party for many weeks, has been back in action since Monday. He has been taken on the West Virginia trip but will probably not be used unless something happens to "Chuck" Lewis or Coleman Walker, regular centers. When Thesmar went out of the Princeton game Lewis, who replaced him, played a strong defensive game but his passing was so erratic as to be almost impossible. But with long and patient practice Lewis has improved his passing and is now one of the best of the Virginia team both on offense and defensive play. Although the trip to West Virginia is a long one involving several changes of train the team is expected to start on the return trip to the game as possible and to reach Charlottesville Sunday afternoon. Monday will probably be a day of rest, with the hard training for North Carolina opening up on Tuesday. Virginia's first year team will play the Virginia Military Institute scrum on Lombard Field tomorrow afternoon in what will be the last home game of the freshmen. Since the Cadet variety gave Virginia a regular defeat last month the Orange and Blue ponies are trying to take the count on the scrubs from Lexington.

EXPECT RECORD CROWD AT YALE PRINCETON GAME

PRINCETON, N. J., Nov. 16.—The biggest crowd in Princeton's football history will gather in Palmer Stadium Saturday to watch the 46th annual battle between Yale and Princeton. The present sale of tickets \$5,744 is several thousand above that for any previous year. Increased capacity at the Stadium, having been provided for, means that the top row, away from the cinder path and in the open end. Plain clothed men and uniformed guards have been detailed to prevent ticket scalping. Forty-one special trains will be run from New York and Philadelphia and a student help bureau has been organized to facilitate movements of automobiles.

HOREMANS HANGS UP A NEW HIGH RECORD

NEW YORK, Nov. 16.—Edmund Horemans the Belgian hung up a new record high run of 244 for the international 18.2 ball-line billiard championship tournament in his match against Erich Hagenaehner, German. Horemans also had runs of 142 and 60 while his opponent had runs of 120, 14 and 44. The final score in favor of Horemans was 300 to 301. Horemans finished his string with an average of 21.7-14. The German's average was 21.7-14.

AMERICAN SPEED IN BOXING JOLTS FOREIGN FIGHTERS

BRIDLE, Nov. 16.—Boxing has become so popular in Germany that the American system of amateur boxing has been adopted. Some 10,000 fans crowded the Sports Palace at each of two recent bouts, and it was stated that the demand would have been even greater had it not been for the fact that the bouts were staged in the evening and many subscribers were kept away by the difficulty of getting midnight trains home. Americans here are interested in the outcome of a challenge which Hans Breitenshtreiter, Germany's heavyweight champion, had today to an American boxer, Samson, who provided the sensation of the evening in his Berlin debut recently. Samson is reported to have been a sparkling pugilist of Jack Dempsey, and to have made good showings against such fighters as Tom Gibbons and "Kid" Norfolk. Samson surprised the spectators by showing a speed and an aggressive boxing greatly contrasting with the sluggish maneuvers of the native talent. Although twenty pounds lighter than Hugo Podzun (175), a Bavarian of considerable ring experience in Germany, the American knocked his opponent down so often in the two opening rounds that the latter's seconds saved their fighter from the other eight rounds by throwing in the towel. Breitenshtreiter, who was at the ringside immediately issued a challenge to the winner and it was accepted. Americans who attended the program found it very amusing to see two points on the 175. In one of these a 160-lb. 155-pound boxer who has become somewhat of a local favorite as German pugilist standards go, put up a convincing opposition to a lighter man, an exciting fight which had been expected a stiff battle. After stolidly stalking about the ring for eight rounds with little or no guard to ward off a rain of punches which lacked knock-out effectiveness, the favorite hunted over to the corner giving up the fight. He was greeted with a bouquet of roses from an admirer. A Dutch boxer, understood to have a fair reputation behind him, figured in the windup as a substitute for Italian Spalla, who was prevented from appearing because of illness. After keeping the audience and a huge German opponent impatiently waiting ten minutes for him to enter the ring, the Hollander appeared, attended by an imposing retinue of assistants. His opponent landed several stiff blows early in the fight, and thereafter the visitor fled in panic from one corner of the ring to another until the towering German caught up with him long enough to secure a knockout in the first round. The crowd sympathized, laughed, and protested in turn.

WILLIE HOPPE AGAIN VICTOR

NEW YORK, Nov. 16.—Willie Hoppe won his second match in the international 18.2 ball-line billiard tournament at the Hotel Pennsylvania tonight. His victory of 500 to 162 over Walker Cochran was built upon two massive runs of 192 to 163. The third best run was 63. The average of the former champion was 55.5-9. Cochran fell to an average of 20.2-8. Throughout the sizeable runs Hoppe chiefly favored rolling caroms of a somewhat free-handed variety. His stroke appeared unsuited to sustained nursing. The result was brilliantly played caroms which his skill at cushion and position made possible. The two games scheduled for tomorrow bring together Roger Conn, the Frenchman, and Erich Hagenaehner, the German, in the matinee match. Jack Schaeffer and Edward Horemans the Belgian, meet in the night contest.

MATCHED FOR BOUT

PHILADELPHIA, Nov. 16.—"Bobby" Harper, 125 lb. of New Orleans, lightweights, have been matched for an eight-round bout on Thanksgiving Day. It was learned today. The bout will take place at the arena formerly known as the Ice Palace in West Philadelphia.

HAMPTON AND DAVISON LEAD

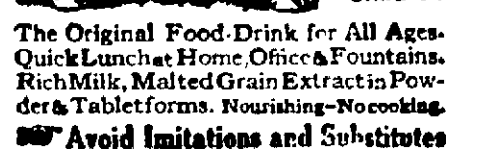

PINEHURST, N. C., Nov. 16.—Harry Hampton, of Detroit, the Brookland Club professional, and Jack Davison, New York amateur, led the field by a margin of one stroke here today at the conclusion of the first thirty-six holes of play in the annual seventy-two-hole amateur professional best ball golf tournament. Hampton and Davison were tied for the lead at the end of the first eighteen holes, with Clarence Hackney, professional and Tom Watten, amateur of Atlantic City, and finished with a birdie score of 69-72-141. Hackney and Watten dropped back to fifth place with 69-76-145. Bob MacDonald, Chicago professional, and Willie Hunter, former British amateur champion, who were somewhat behind in the morning, today climbed to second place with 74-68-142. They were among the favorites in an exceptionally well-balanced field. Thirty-seven pairs are competing in the play.

HAMPDEN SIDNEY IS HOLDING SNAT PRACTICE

HAMPDEN SIDNEY, Va., Nov. 16.—Despite a drizzling rain which continued throughout the afternoon, the Hampden-Sidney Tigers held a snappy practice yesterday, consisting of signal drill and shadow boxing. Coach Roundy has exerted all efforts this week to prepare his team for the fast Richmond aggregation and the Tigers will arrive in Richmond today in full. Each night this week the Tiger student body has held a pep meeting, creating a big tide of enthusiasm which always has characterized the student and faculty. Practically the entire student body and faculty will be in Richmond to witness the game and will wear their old colors to victory or defeat. In the backfield, Hampden-Sidney will have a trio of Richmond boys performing. Bob Brennan, Rex Plunkinship and Lorraine Sanders or Greenville Hinkle will form three-fourths of the combination of the backfield that will face the Spiders tomorrow. These lads, being in their home town will doubtless give all that they have to conquer the opposing wearers of the blue and white.

HOREMANS HANGS UP NEW HIGH RECORD

NEW YORK, Nov. 16.—Edmund Horemans the Belgian hung up a new record high run of 244 for the international 18.2 ball-line billiard championship tournament in his match against Erich Hagenaehner, German. Horemans also had runs of 142 and 60 while his opponent had runs of 120, 14 and 44. The final score in favor of Horemans was 300 to 301. Horemans finished his string with an average of 21.7-14. The German's average was 21.7-14.

LADY ASTOR IN PLEA FOR MORE PARTY HARMONY

PLYMOUTH, Nov. 16.—(By The Associated Press.)—Lady Astor, who has just been elected to Parliament, in a letter to the Western Morning News, a Plymouth paper, alludes to the division of the Conservative votes and makes a plea to the Conservatives to close ranks.

Addressing the liquor trade, Lady Astor says:

"The wise business men are those who read the signs of the times. Increasing temperance activity of all churches, the growing need of efficiency and economy felt by the commercial and industrial community and the establishment of the women's vote, all point to liquor licensing legislation of a drastic character in the near future."

ALLIED REPARATION VIEWS AT VARIANCE

PARIS, Nov. 16.—The Reparation Commission, with each member presenting a separate report on their two week's investigation in Berlin, met today in the first of a series of unofficial conferences at which an attempt will be made to frame unanimous recommendations. Both Rowland W. Boyden and Col. James A. Logan, Jr. attended as the unofficial American representatives.

There are known to be wide differences between the French and British views and it is not expected in allied circles that an agreement will be reached quickly, as at each of the frequent reparation "crises" unanimity has been increasingly difficult to obtain.

Cuticura Soap
Will Help You
Clear Your Skin

Soap, Ointment, Talcum, etc. everywhere. Samples free of Cuticura Laboratories, Dept. 2, Malden, Mass.

Constipation
Relieved Without the Use
of Laxatives

Nujol is a lubricant—not a medicine or laxative—so cannot gripe.

When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus replaces it. Try it today.

Nujol
A LUBRICANT—NOT A LAXATIVE

No more Rheumatism

"Suffering has gone from your face, mother!"

S. S. S. Is the Great Builder of Red Blood-Cells and Rheumatism Must Go! Just Try It!

"Rheumatism? Me? No, indeed, it's all gone, every bit of it! It's sunshine and joy for me now for the first time in years. I feel a wonderful glow again in the free motion I used to have when my days were younger. I look at my hands and think of the twists and swellings they used to have. I bend my arm over to the floor. I haven't been able to do that for many years. I can thank S. S. S. for it all! To me it was a rising sun of joy and liberty. Brothers and sisters in misery, do not close your eyes and think that health, free motion and strength are gone from you forever! It is not so. It is here and now for all of you. S. S. S. is waiting to help you. There is a reason why S. S. S. will help you. When you increase the number of your red-blood cells, the entire system undergoes a tremendous change. Every organ depends on blood strength. Blood which is minus sufficient red-cells leads to a host of troubles. Rheumatism is one of them. S. S. S. is the great blood-cleaner, blood-builder, system strengthener, nerve invigorator. It stops skin eruptions, too, pimples, blackheads, acne, boils, eczema. It builds up run-down, tired muscles and makes the flesh firm. Start S. S. S. today. It is sold at all drug stores in two sizes. The larger size bottle is the more economical.

S. S. S. makes you feel like yourself again

On the Job Every Day?

"NO!" Says the Superintendent's Report

In small, as well as big institutions, the superintendent's reports show an appalling number of persons marked "Absent account of sickness" with nervous headache, indigestion, lame back, biliousness, constipation, or loss of energy—all of which show that the Liver and Kidneys have been neglected.

Others are absent because of boils, skin diseases, eczema, tetter and other indications that the blood is clogged with impurities. Perhaps it is rheumatism, uric acid poison or high blood pressure that is keeping many from their work. In any event this means not only suffering but the loss of real money and much happiness, and it is a drain upon the vitality.

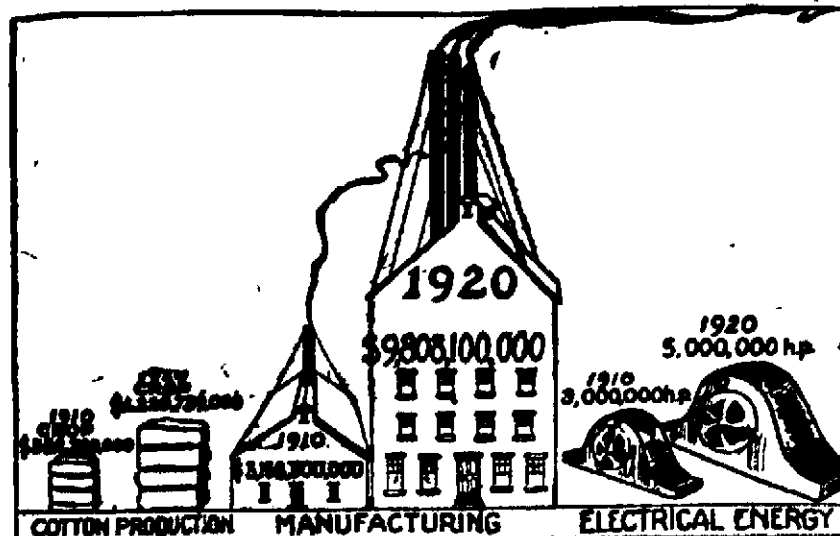

DR. LIVINGSTON'S REGENERATOR
THE GREAT BLOOD TONIC AND NERVE PURIFIER

is the one remedy that has been tried and proved as a most remarkable preparation to keep the Liver and Kidneys clear of wastes, materials and the blood purified. At the same time it builds up the general strength of the body.

Look to REGENERATOR to keep you on the job every day. Get a bottle today. Price \$1.00.

SPECIAL NOTICE: If REGENERATOR cannot be obtained from your regular dealer ask him to order it for you from his jobbers of Ohio or \$2.50 for a bottle postpaid. Address, Livingston Medicine Company, Dept. H, Atlanta, Ga.

South Outstrips New England as Nation's Manufacturing Center

THE South has far outstripped New England and all other sections of the country in the development of manufacturing industries during the past decade, according to a survey recently made by the Institute of American Business.

Between 1910 and 1920 the value of products from Southern factories rose from \$3,158,300,000 to \$9,808,100,000 or a gain of more than 330 per cent. The value of Southern manufactured products for the census year of 1920 is almost exactly the same as the total value of manufactured products of the United States, excluding the South, in 1900.

New England, which now ranks second instead of first in rate of industrial development, turned out products in 1920 with a value of \$7,183,070,799 as against a total value of \$2,770,065,114 in 1910 or more than two and a half times the total of the previous decade. Cotton has similarly fallen behind in terms of wealth production, in Southern States east of the Mississippi. The value of the 1920 cotton crop was only \$1,220,739,000 instead of \$532,720,000 in 1910.

MRS. ANDERSON NOT GUILTY IS JURY VERDICT

BECKLEY, W. Va., Nov. 16.—Mrs. Alice Anderson tonight was found not guilty of the murder of her husband, John M. Anderson, formerly judge of the Criminal Court of Raleigh County.

The case came through the court room where her husband once presided, when the jury filed into the room and announced its verdict after deliberating only thirty minutes.

Mrs. Anderson pleaded that she shot her husband in self-defense after he had cursed and threatened her. Her son and daughter corroborated her testimony that she was subjected to beatings at the hands of Judge Anderson.

BECKLEY, W. Va., Nov. 16.—The fate of Mrs. Alice Anderson, charged with the murder of her husband, Judge John M. Anderson, tonight rests with a criminal court jury of eight white men and four negroes.

Before the closing arguments were made this afternoon, the defendant on re-direct examination, testified she obtained a revolver from behind a trunk and shot her husband after he threatened to beat her.

Sheriff Blankenship, called by the state, testified that Mrs. Anderson had explained of ill treatment by her husband and had declared that unless authorities came to her assistance would take the law into her own hands. The defense sought to prove the statement was made on an occasion when the sheriff was called to the house after the judge had dashed several pieces of furniture.

Mrs. Anderson was tried in the court where her husband formerly was presiding magistrate. Her plea was self-defense and her son and daughter who were witnesses, corroborated her testimony that Judge Anderson often threatened his wife after he had been drinking.

LAST OF AUTOS PULLED OUT OF MUD ON NEW ROAD

LECATO, Va., Nov. 16.—The last of the 500 automobiles stalled in the mud of the new road connecting Chincoteague island with the mainland of Accomas County during the celebration of the opening of the new road and the toll bridge was pulled out today and transferred to the mainland today. Volunteers worked all day pulling the vehicles out of the mud on the island and transferring them by boat to the mainland.

Many of the visitors to the celebration were forced to spend last night in their automobiles. A heavy rain fell and the wind was chilly, but there was little suffering from exposure it was said.

GREEK LIBERALS ADVOCATE CHANGE OF ATHENS REGIME

ATHENS, Nov. 16.—The question of bringing about a change of regime in Greece is growing among the liberals, who represent two sets of ideas, the moderate and the extreme. The moderates do not deem it wise to raise the question at the present moment as it may create serious complications; the extremists, however, declare that as the Crown has failed to serve the vital interests of the country, it should be renounced and discarded in favor of a republic.

During 100 years of freedom, Greece, they argue, has been unable to acquire a national royal dynasty of its own, because the foreign kings have always been alien to Hellenic sentiments, and have refused to sacrifice their own interests for the benefit of the country. No one can guarantee that the succeeding kings of the same stock will not accumulate upon the heads of the Greek people the misfortunes for which King Constantine is responsible.

The speedy punishment of those responsible for the catastrophe which has overtaken Greece has not lost its force. The commission of inquiry into Greek affairs which has conscientiously carried out its investigations is strongly supported by public opinion.

The probability of reviving the Balkan League is regarded as a good omen for a fresh lease of life for Greece. The Turks by their folly have already begun to lose ground and the world will soon grasp the undeniable fact that the Turk is a Turk, unchangeable, unappealable, always prepared to destroy and massacre. The late events in Constantinople and Thrace are sufficient evidence of this. After the persecution of the native Christians, the Turk turns against Europeans. Recent news reports that the French at Smyrna are being molested and expelled, and that all Christians in every part of Turkey are being taken to the coast and deported from the country with the purpose of carrying out the maxim of Turkey for the Turks.

ATLANTA, Ga.—Consumption of soft drinks and beverages is increasing annually at the rate of 30 per cent. T. Yamamoto, managing director of the Japan Beer and Mineral Springs Company, Ltd., today told delegates to the convention her of soft drink bottlers of the United States and for-

Stubborn Inflammations usually respond to Resinol

Although Resinol Ointment is primarily intended for the treatment of skin affections and the control of itching, it has such a strong healing action that it is highly and widely recommended as a dressing for the most stubborn boils, sores, wounds, etc.

It is mild, soothing and does not smart or sting when applied. Many satisfied users testify that it has healed quickly and easily, sores that have refused to yield to other treatments.

Soloman's Temple May Be Rebuilt

Addressing a large and enthusiastic audience at the Shaarei Zedek synagogue, Detroit, Mich., Dr. Joseph E. Emanuel, New York, declared that one of the things the Jews should do in Palestine is to rebuild the Temple of Solomon, on the gates of which should be inscribed the words of the prophet, "My house shall be called a house of prayer for all nations."

Part of the Temple, he said, should be set aside for the League of Nations and for the International Court of Arbitration, so that Jerusalem may again become the "City of Peace" and a leader of modern civilization.

Dr. Silverman came to Detroit from Cincinnati, where he attended a meeting of the Hebrew Union College and delivered an address in the temple of Dr. Philipson, where he advocated the rebuilding of Palestine through the Palestine Foundation Fund (Keren Hayesod). In Detroit where he went in the interests of the Keren Hayesod, Rabbi Silverman was received by a committee of representatives of the Jewish community, including the Central Conference of American Rabbis. The committee included the leading Zionists of the City, among them Dr. Herschman, the Orthodox Rabbi, Dr. Berkowitz, Fred Bauzel, Dr. W. Simon and other local leaders of the Brandeis group.

State Conference Plans

A Virginia Keren Hayesod (Palestine Foundation fund) State Conference will be held in the Southland Hotel, Norfolk, all day Sunday, November 19th, 1922. The object of this Conference is to organize all communities in Virginia for Keren Hayesod work. The following cities have been invited to send representatives to the Conference: Ashland, Berkeley, Bristol, Covington, Danville, Fredericksburg, Hampton, Philadelphia, Lynchburg, Martinsville, Newport News, Norfolk, Petersburg, Portsmouth, Richmond, Roanoke, Staunton, Suffolk.

The Committee in charge of the Conference consists of the following: Dr. N. J. Gould, Chairman, S. Finestone, S. Baker, D. Spiloff, S. Shalom, all of Norfolk. The committee is sparing no efforts to make the Conference a most successful one. A luncheon will be served in honor of the visiting delegates.

Louis Lipsky, chairman of the Zionist Organization of America, and Dr. J. Schneider, chairman of the Keren Hayesod for America, will attend the Conference and address the delegates. The conference will be concluded with a mass-meeting which will be held in one of the Norfolk temples.

DRY RULING STARTS ROW

DUBLIN, Nov. 16.—A prominent American official in Ireland recently complained to me of the unfair propaganda which is not alone appearing in the British papers, but also in the Irish against the American liners. Every little incident is enlarged and everything in connection with the prohibition of liquor abroad is given a prominent position in the papers. Recently he went on to say: "A story was given great prominence of where there was a rash ashore when one of the boats of the President Polk, came to Queens-town; the passengers were all anxious to give \$20 for a drink of whiskey." I have inquired into the incident myself and found that there was not a suggestion of truth in it. While the propaganda campaign against American ships is probably not so great as my friend suggests, there is undoubtedly something in it. American ships have recently captured a lot of the Irish traffic trade.

TRACES WOMEN'S ROW BY HANKS OF TRESSSES

LONDON, Nov. 18.—Giving evidence in the Shoreditch County Court, Constable Martin said that he was called to a house after a row between two women, and he followed the trail of hanks of hair to the rooms where the brawlers had hidden.

PROTEST SENT POPE AT ROME

WASHINGTON, Nov. 16.—John J. Winerty, president of the American Association for the Recognition of

the Irish Republic, sent a cable message to Pope Plus at Rome tonight in reference to Miss Mary Maguire, whom is a prisoner of the Irish Free State and on a hunger strike in a Dublin prison. The message said:

"Liberty loving people throughout

the world view with consternation and horror your permitting Irish clergy to refuse sacrament to Mary Maguire, thus outlawing to the whole world means of moral force and leaving no alternative except dependence solely on physical force."

ARMY GOODS

The most complete stock of Army Goods ever shown in Danville. We have invested thousands of dollars in this class of merchandise, and have picked the best that the army had. The prices, as you will see, are far below the actual cost to the government.

HOOCH? ANCIENTS BEAT US TO IT

When you were a tadpole and I was a fish. In the paleozoic time. We'd brew our booze in the primal ooze. And reel in the Stygian slugs. We'd make our stills and curse our ills. And would serve in the primitive pen. We were much afraid of the dry sound's rattle. For we bootlegged even then. From "Hillman of a Bootlegger."

Prof. H. F. Lutz, Egyptologist at the University of California, has just completed a comprehensive study of "Victims of the Bootlegger."

And, oh boy, among other things he discovered more than 199 "recipes" for "making your own."

Also he found that prohibition was not much of a success in its first appearance. It came as a religious enactment.

Persia, it seems, was the cradle of the bootlegger. A nation largely occupied in the making of wine. It did not take kindly to the enforcement act. Egyptian monarch finally interceded, but wine smuggling already was becoming a pet sport.

Professor Lutz discovered that the power of the law was unappreciated, by dry enforcers as well as the home brewers. From the "Daily Hieroglyph"—or whatever the ancient bulletin board was called—he culled the following, which may sound familiar to many:

"In the year 401, during the reign of Hakin, many people of Cario were beaten and led shamefully through the streets because they had sold wine, a forbidden merchandise. There you have the fate of the first bootlegger."

Again, he finds this: "Hakim prohibited the sale of raisins and issued orders against importation. Large quantities of raisins were thrown into the Nile or burned, or were thrown into the streets and trampled upon."

INDIAN HOME RULE

STRONGLY URGED

CALCUTTA, Nov. 16.—The report of the Committee on Civil Disobedience in India, which had been presented to the British House of Commons, has been widely discussed. An editorial in the moderate Journal of the Madras says that failure is written large in the recommendations of the report which amounts to self-deception. A prominent Indian extremist declares that the British subject being village organization is a waste of its energies in such useless channels as entering the councils, which is sure to demoralize public life.

The extremist organ Swarajya speaks of the grave error of political judgment in going back on Mahatma Gandhi's great policy. The extremist Bombay Chronicle speaks of the change of tactics and the violation of rights. The European organ, the Madras Mail, says that the report contains no constructive proposal and that its adoption would wreck the reforms. The Journal, New India, observes that the colossal failure of Non-Cooperation is writ large in the report. The Daily Express of Madras calls the report fatuous, and the Hindu, also of Madras, considers the report a bitter disappointment.

Mrs. Besant, addressing meetings at Poona and Ahmedabad, busy endorsing the scheme of immediate home rule for India, stressed the urgency of India preparing a constitution suitable to its needs, instead of accepting one prepared for it by another nation, however well-intentioned. She pointed out that there was a ten-year's limit in the government of India act, but India had not yet accepted that limit. A 12-year limit was suggested and she said home rule.

India could not go sleep, Mrs. Besant continued. She advocated a conference of all parties to hammer out a constitution and fight the next legislative elections on the lines of the constitution adopted a year ago. Mrs. Besant, vigorously opposing Mr. Gandhi, was howled down by the extremists. She has now reverted to a more moderate position.

FRANCE PROPOSES RADICAL MEASURE

PARIS, Nov. 16.—Various foreign governments, including the United States and Great Britain, will, it is understood, make diplomatic representations to the French Government against the bill proposed by the Minister of the Interior forbidding foreigners to hold real estate in France, or to lease property for more than nine years, without Governmental approval by formal decree.

The bill passed the Chamber of Deputies unanimously without discussion on Nov. 8 and is pending in the Senate. It has become the subject to anxious discussion among foreign companies and foreign citizens, among whom are many Americans in France, especially because the law is retroactive and provides that if governmental permission is not granted within six months the properties may be taken over and sold at auction.

The proposed law, it is pointed out, appears to be in contravention of the treaty of 1855 between France and the United States allowing reciprocal rights to own real estate.

The purpose of the measure, as generally attributed, is to carry out the desire of the French Parliament to prevent Germans establishing themselves in France as before the war. Other motives are thought also in some quarters to be behind the proposition.

For instance, it is commonly reported that a considerable number of Americans have been availing themselves of the favorable rate of exchange and investing in French property with the purpose of holding on until the franc recovered its pre-war value.
